

There is strong support for two pilots

- Large majorities say they would never feel comfortable if there aren't two pilots on the flight deck **and** that computer-operated, remote air travel would make them feel less safe.
- 73% say they would **never** feel comfortable flying without two pilots on the flight deck.

79%

Say remotely-operated planes would make them feel less safe flying.

Would feel ___ removing pilots from the flight deck and allowing computers to operate planes remotely
